Media Advisory April 8 2026

Nueces River Authority Board Meeting Rescheduled

The Nueces River Authority has rescheduled its Board of Directors meeting previously set for April 10, 2026.

Following a recent inquiry from a community member, the Authority conducted a review of its posting process for this meeting. During the review, it was determined that although the required meeting agenda was posted at the main offices in Uvalde, it was not posted on the Authority's website, which is part of our normal process.

The Authority is committed to transparency and confidence in its public processes. To ensure clear adherence to Texas Open Meetings guidelines, we will reschedule the Board meeting.

A new meeting date will be announced in the coming days.
